Dear Sir / Madam,

Kemp Construction Ltd - Health and Dental Centre Project

To whom this may concern,

Kemp Construction Ltd were employed under contract by the Royal New Zealand Navy to undertake a detailed project involving the construction of a new Dental Centre and the retro-fit of part of the Navy hospital.

From the start the Kemp Construction team approached the project in a business-like, professional and diligent manner. The foreman and all staff directly employed were a pleasure to deal with and maintained the site in a manner consistent with the expectations of the Base.

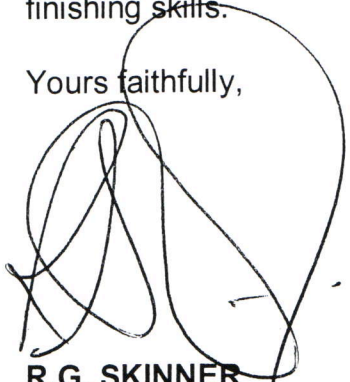

The relationships with the large number of professional stakeholders, who continued to work throughout the project, were well managed. The Dental Officers and hospital staff were moved into their new facilities in a seamless transition.

Kemp Construction's workmanship and quality standards far exceeded our expectations, and the lack of re-work necessary by their staff was a lesson in a company standard that insists on a culture of pride to be exhibited in their staff's work.

The project was executed professionally, delivered on time, in specification and within budget.

On the strength of what Kemp Construction has completed for Navy, I would recommend the company for similar project work i.e. work requiring the maintenance of security, a high degree of staff discipline, professional management and high level finishing skills.

Yours faithfully,
