

**TO WHOM IT MAY CONCERN**

**Royal New Zealand Navy  
Dental & Health Facility, Devonport Naval Base, Auckland  
New Zealand Defence Force**

Kemp Construction Limited (Kemp) was appointed as Main Contractor for the above project.

The contract was awarded on a competitive tender basis with Kemp winning on both price and non-price attributes.

The new building was integrated with the existing main hospital at the Devonport Naval Base requiring considerable co-ordination by Kemp with the hospital staff as the facility is run on a 24 hr basis.

The project was complicated by the inclusion of specialised dental equipment in a medical environment requiring a high standard of co-ordination and finish.

Kemp completed the construction phase in a professional manner, on time, within budget and to a high quality much, to the satisfaction of the Client.

We found Kemp extremely easy to work with, pro-active and keen to put the Client's interests first at all times.

We have no hesitation in recommending Kemp Construction Limited for any similar project.

Yours faithfully  
**RDT Pacific**
